

ANCIENT CITIES OF NORTH AFRICA AND THE IBERIAN PENINSULA

Aboard the New Expedition Cruise Ship *DIANA*

August 15-27, 2023

Dear Traveler,

The history of the southern and western shores of the Mediterranean can be told from many perspectives. To an ancient historian, it is the story of early Phoenician expansion westward, followed by Roman conquests, and ending with the Punic Wars and the destruction of Carthage in the 2nd century BC. For a medievalist, the story begins with the stunningly rapid spread of Islam across North Africa and onto the Iberian Peninsula in the 6th-8th centuries and ends with the Spanish reconquest of Granada in 1492. From a contemporary perspective, we might choose to focus on the French colonization of Tunisia and Algeria, the rise of nationalism and Islam, and the "Arab Spring" of the 2010s.

During this voyage, we will touch on chapters of each of these stories as we call in ports in Spain and all along the coast of North Africa. We begin in southern Iberia, where Arab influences are found everywhere, but especially in cosmopolitan Seville, where we can trace the legacies of Moorish and Catholic Spain as they mingle in the monuments of this great city. Crossing to North Africa, where the Islamic heritage is very much alive and well, we visit the ancient medinas and markets of Tangier, Tetouan, and Oran. Further to the east, the ancient world is spectacularly represented in the tomb of King Juba II in Tipasa and by the UNESCO-designated Roman ruins at Djemila. And in Tunis, we find ourselves at the site of the ruins of Carthage—and also at starting point of the Arab Spring.

Joining us as guest lecturers will be Jim Falk, retired president of the World Affairs Council of Dallas/Fort Worth and currently Program Chair of the Global Santa Fe Council, Scott MacDonald, Professor of Philosophy and Religious Studies at Cornell, and Professor Diederik Vandewalle, associate Professor of Government at Dartmouth. Mr. Falk and Professor Vandewalle will share their insights into the history and current affairs of this part of the Mediterranean, and Professor MacDonald will talk about the period of coexistence of Christians, Jews, and Muslims in medieval Andalusia and about St. Augustine's writings.

Our vessel for this extraordinary journey will be a state-of-the-art, new-generation expedition cruise ship, currently nearing completion in Finland and due to launch in early 2023. Accommodating only 192 guests in beautifully appointed staterooms and balcony suites, Swan Hellenic's *Diana* will feature several lounges, a restaurant, outdoor cafe, swimming pool, spa, and library and will be equipped with the latest safety and environmentally-friendly technology.

Please join Jim Falk, Diederik Vandewalle and Scott MacDonald and fellow travelers aboard *Diana* in August 2023 to discover some of the remarkably rich stories of the *Ancient Cities of North Africa and the Iberian Peninsula*.

Best Wishes,

Currently under construction in Finland and launching in early March 2023, Swan Hellenic's *Diana* is a new-generation expedition cruise ship. Although at 12,100 tons the ship is large enough to accommodate more than 350 passengers, *Diana* will accommodate a maximum of 192 guests in 96 spacious staterooms and balcony suites. The low guest density results in one of the most generous indoor and outdoor space-to-guest ratios among cruise ships.

Featuring the latest advances in technology and engineering, *Diana* is among the world's first environmentally-responsible ships. Equipped with hybrid engines, a system of powerful batteries, and a unique water filtration system, *Diana* leaves a minimal footprint. For cruising

in Polar regions, the ship meets the stringent requirements of the new Polar Code with its high PC5 Category A ice-strengthened hull and other advanced features. A computer-controlled Dynamic Positioning System allows the ship to maintain position without anchoring. Operated by a complement of 135 experienced European officers and international crew members, *Diana* will carry a fleet of Zodiacs, versatile landing boats, and kayaks. Powerful stabilizers provide a smooth ride.

Diana's interior spaces exude sophisticated elegance, with most rooms opening to panoramic views of the sea. All staterooms and suites face outside and are equipped with private facilities, climate control, TV, Wi-Fi and USB connections

and other amenities. Of the ship's 96 staterooms, 76 have balconies. Public areas include a spacious observation lounge equipped with state-of-the-art facilities for lectures and presentations; a club lounge; a restaurant that accommodates all guests at one seating; an outdoor café/bar that surrounds the heated swimming pool; a wellness area with gym, spa, and sauna with an adjoining outdoor jacuzzi; library; beauty salon; and an infirmary that is attended by a full-time doctor and nurse. The ship also features expansive open-deck areas. Two elevators connect all decks. Attentive service is provided on a 24-hour basis. The outstanding cuisine is complemented by fine wines at lunch and dinner.

Explore Tangier's, a classic Moroccan town of narrow lanes and stepped passages, dominated by a kasbah. Then travel to Tetouan, which was rebuilt in the 15th century by Andalusian refugees who had been expelled during the Spanish reconquest. Although it is a small medina, Tetouan's is among the most authentic, having been largely untouched by later outside influences. (B,L,D)

Fort Santa Cruz that overlooks the city and the Sidi El Houari district. We will also visit the Medina Jedida, a massive market selling flowers, textiles, jewelry, and souvenirs of every description. ALGIERS/TIPASA

Located about 40 miles west of Algiers, Tipasa's ancient temples and ruins overlook the Mediterranean to dramatic effect.
